

Connected compliance

Electronic Logging Device (ELD) solutions for fleets

A solution that fits your fleet

Whether you're a small or a large fleet of company drivers, Fleet Complete has flexible solutions to suit your business needs. Get your fleet working together to achieve electronic logging device (ELD) mandate compliance under one flexible, affordable, and easy-to-use solution.

Driver logs done right

Fleet Complete HoS is an electronic logging app for Android and iOS devices that simplifies driver logs. With it you can complete clean and accurate logs that are inspection ready. If you make a mistake, editing is even easier than on paper.

ELD made easy with Fleet Complete

Optimize operations

- HOS visibility and fleet tracking
- Simplify tasks and reporting

- IFTA and driver hours reporting

Fleet Tracker MGS800

- Plug-and-play solution
- Accurate engine readings
- Simplifies logging process

Fleet Tracker MGS800

An advanced GPS fleet tracking solution with LTE that provides visibility and insight over your assets and workforce in near real-time

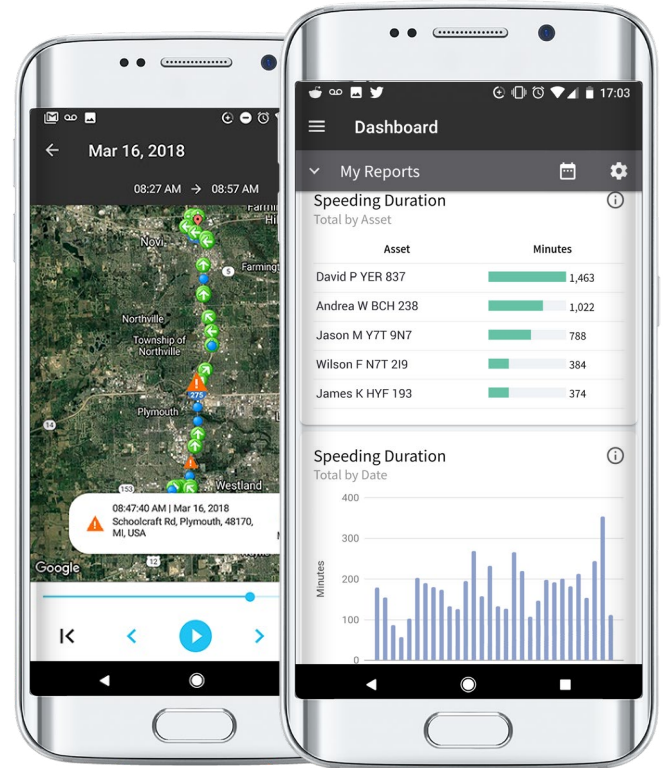

Now you can manage your fleet proactively and respond to your customer needs faster and with increased accuracy. The additional speed of data movement with LTE connectivity enables fast and secure transmission that will future-proof your fleet for years to come.

Get more out of your field staff instantly after a quick professional installation of the Fleet Tracker MGS800. This versatile and feature-rich GPS tracking device provides your fleet managers the best insight into your fleet.

Tackle common fleet issues

- **Monitor driver behavior:** excessive speeding, harsh braking and racing is dangerous and is costing you in maintenance fees and increased fuel consumption.
- **Get insight into your vehicles like never before:** MGS800 integrates with your vehicle's ECM* and delivers you 19 important engine data points.
- **Prolong your vehicle life:** receive instant DTC code alerts or Check Engine notification and schedule vehicle service before critical breakage occurs.
- **Know where your fleet is at all times, even in remote locations:** track your vehicles in remote locations where cellular network is unavailable with our Satellite Failover option**.

* Available with ECM integration through CANBUS/J1939 connections. * Additional service fee. *** Not available on all vehicle models. Consult Fleet Complete expert for more information.

Easy engine-connected electronic logs

Complies with US 395.15 and CAN SOR-2005 313

Improved state mileage data

Effortless installation and setup

FMCSA certified ELD solution
